

# UX Testing + UI Iteration

<b>User Interface:</b> How could the styling of elements be changed to make a more visually appealing, clear, and space efficient layout? <i>(ex: sizes, colors, fonts, alignment, etc.)</i>		<b>User Experience:</b> What elements of the user experience could be improved to make the puzzle more fun/satisfying? <i>(ex: sounds, hover effects, etc.)</i>
<b>User 1 Name:</b> Benjamin	<ul style="list-style-type: none"><li>It's easy to understand what is going on and clear what is being shown!</li><li>Make text pop out more and make it bigger so people are attracted to the top div</li></ul>	<ul style="list-style-type: none"><li>Give the character in the middle something to do, for example turning him into a more powerful form!</li><li>Add a reset button on the text and people know to do it!</li></ul>
<b>User 2 Name:</b> Noah	<ul style="list-style-type: none"><li>Layout is intuitive</li><li>Make Images smaller so they don't overlap</li></ul>	<ul style="list-style-type: none"><li>Get rid of hover and ability to click on middle image or give it something to do</li><li>Make it when you click on the characters the voice lines don't overlap as well.</li></ul>
<b>User 3 Name:</b> Jared	<ul style="list-style-type: none"><li>Breakpoints are nice and feel like its the same webpage but in a different position</li><li>Add backgrounds to the small images</li></ul>	<ul style="list-style-type: none"><li>Make middle image change or add something</li><li>Glow is a nice touch!</li><li>Text changes to the appropriate character</li></ul>
<b>User 4 Name:</b> Tyler	<ul style="list-style-type: none"><li>Images are really good picks and they fit the theme of the Yakuza game series.</li><li>Text is also clearly seen</li><li>Make text slightly bigger</li></ul>	<ul style="list-style-type: none"><li>Make it when you click on the images they do an animation</li><li>Make the middle image react as well</li></ul>
<b>User 5 Name:</b> Zaydan	<ul style="list-style-type: none"><li>It makes sense what click on</li><li>Fix images size</li><li>Add more images maybe as the background</li></ul>	<ul style="list-style-type: none"><li>Implement gifs or a video into the website</li><li>Sound effects are really good, add more!</li></ul>

## UI Before Feedback (Screenshot / GIF)

What trends did you identify in your feedback?

- Text is small
- Middle character does nothing
- Size of images and aesthetic
- Add more of everything (Images, Audio)

## UI After Feedback (Screenshot / GIF)

What changes did you make to improve your UI?

- Added more images!
- Added more audio!
- Fixed sizes!
- Fixed mobile view!
- Added conditional logic!
